Reference Letter

Denise Lodge relays how the tragic loss of her son could have been prevented through presentations created for the CoreySafe Society. The gripping and compelling "ride and drive safe" presentation for youth that has been created aims at providing education at a critical time, that being while driving skills are still being learned and habits are being formed.

This "C.O.R.E.Y. Ride and Drive Safe" presentation involves guest speakers, videos, music and safety equipment. The presentation is interactive and captures the attention of Youth and Adults alike. During the presentation Denise Lodge tells her personal story and uses her loss to educate Youth on how to protect themselves while driving by providing them with information which is timely and relevant at this stage in their lives. Adults who are also present have benefited from this presentation and use it to modify their own bad habits.

The Kitimat RCMP have supported the CoreySafe Society and "C.O.R.E.Y Ride and Drive Safe" presentations by participating in the delivery of the presentation to groups of youth both large and small in schools across Northern BC.

The Kitimat RCMP support the continued growth and outreach of the CoreySafe Society and their "C.O.R.E.Y Ride and Drive Safe" presentation to Youth across British Columbia.

Yours truly,

Sgt Eric BLACK
acting Detachment Commander
Kitimat RCMP
