

May is Motorcycle Safety Awareness Month

May is Motorcycle Safety Awareness Month in Canada.

Here's what the Motorcyclists Confederation of Canada(MCC) had to say: *"May is Motorcycle Safety Awareness Month in Canada. MCC encourages motorcyclists to ride safely, and we remind all road users to watch out for motorcyclists as peak riding season begins. Motorcycles are primary transportation for many people. Safe Riding Everyone! Motorcycle Safety is Everyone's Responsibility."*

At CoreySafe Society we remain resolute and dedicated in pushing the frontiers of safe motor riding awareness across BC and Canada. We stand with Motorcyclists Confederation of Canada to remind everyone to keep an eye out for bikes. Visit [CoreySafe.com](https://www.coreysafe.com) to avail yourself of videos, materials, and information on safe motor riding and road sharing in British Columbia.

The CoreySafe Society every May does a Motorcycle awareness campaign to help bring awareness to motorcycles and the safety to on-road and off-road driving. The Society has reached over 11,500 school youths across BC as at the end of 2020. We thank all our partners and sponsors, including the RCMP, in making this possible.
